**Ronald Lee Woolley**

Address: 750 Stierlin Road No. 38, Mtn. View, Calif. 94040

With the exception of two years, I have been in school since May, 1961. I have studied Mechanical Engineering at B.Y.U. receiving a BES degree in 1966 and an MS in 1968. This was interspersed with summer jobs in Long Beach, California; New Orleans, Louisiana; and of course those enjoyable summers back home on the farm.

Then I went to work for Philco Ford Corporation in Newport Beach, Calif as a project engineer. The company is a defense-aerospace contractor and I was employed by the division working on problems of reentry vehicles. When the opportunity for more education coincided with a disillusionment of defense work I began to pursue the elusive PhD degree at Stanford University. My specialty field is thermoscience within the discipline of Mechanical Engineering and I hope to finish some time next year. I am still single, with no imminent plans for changing that situation.
