

1961

2019

After graduating from high school I attended The University Of Idaho for one year. Then in the fall of 62 I joined the US Air Force. I was stationed in Colorado where I met my future wife (Della). We have a set of twins (boy & girl) and 3 grandsons. After I left the service I went to work for AT&T doing microwave radio maintenance and then maintenance on their electronic long distance switching machines. While working for AT&T I have lived in Utah, Colorado & California. After 33 years with AT&T I retired and have settled down in Colorado where I now live.
