

LINDA LEE MATTHEWS PETTY

Linda Lee Matthews was born July 9, 1943, in Salida, Chaffee, Colorado. Her parents were Frank "Tok" Ramsey, and Dorothy Gerrard Matthews. She had one brother Richard Matthews and one sister Debra Matthews Spencer.

She was at the home of her daughter Julie in Bel Grade, Montana, at time of her passing. She passed away from Sepsis, from an infection she acquired from a "BUG" at the Triage Hospital in Houston, Texas where she worked. Linda passed away April 6, 1999

Most of Linda's growing up years were in Jerome, Idaho. After Graduating from Hi School, Linda became a nurse and was in the Army for about a year. She may have served on one of the large hospital ships also.

Linda married Jack Petty and they had 3 children together. There were two daughters and one son. They later divorced.

After Linda became ill, she had to quit her job and with no insurance, thing became difficult for her. It was like she was a missing person. But her Ex-husband flew to her home and found her unconscious on the kitchen floor. Her brought her home and family took care of her until her passing. (I do not know if she was brought back to Idaho or Montana).

Besides Idaho and Texas, Linda lived in Washington and Montana.

(Since we could not locate the actual obituary for Linda, A cousin furnished the above information and is as accurate as can be remembered).
